Whole Truth Solutions' Bath Bars
Proof That You Don't Have to Sacrifice Health for Beauty

When Nothing but the Truth Will Do, Turn to Whole Truth Solutions – Whole Truth Solutions is determined to introduce consumers to their world of healthy beauty...beauty that is handmade, eco-friendly and composed of all natural, plant-based ingredients. The truth is out and this line is the real deal!

Whole Truth Solutions' Bath Bars - The first product launch from Whole Truth Solutions comes in the form of their beautiful Bath Bars. The company affectionately touts them as perfectly imperfect as each is slightly different in shape from being handmade and hand-cut. Each Bath Bar is filled with the finest organic oils and butters, then infused with healing herbs, tea blends and other natural elements to create a bar that nature would be proud of.

The Cold, Long, Hard Road to Naturally Beautiful Bars

Whole Truth Solutions' Bath Bars are created using the cold-process of soap making. Next, each Bath Bar is cured for a minimum of four weeks, ensuring a hard, long lasting bar. Aside from the integral process and all natural and organic ingredients used to create these bars, they are just plain fun! Each has a great name attached to the scent and the packaging is made from 100% recycled material. **Check out the scents:**

Dismayed by the hundreds of eco-friendly, all natural, bath and body “imposters” on the market, husband and wife team, Teresa and Frank Bebla decided to take action and create a company that could embrace all of those titles, truthfully! Certified in Holistic Nutrition, a Licensed Massage Therapist and currently working on a bachelors’ of Science in Holistic Health, Teresa has always had a passion for healthy and holistic living. Therefore, Whole Truth Solutions, is a proud signer of the Campaign for Safe Cosmetics, has taken the Truth in Labeling Pledge and donates a portion of proceeds to the Cancer Prevention Coalition.

Whole Truth Solutions' Bath Bars are Available at www.WholeTruthSolutions.com for \$6.50 a Bar.
